Offer text

Decorative wall mounting made of cast aluminium. With 4 fixing holes Ø 10 mm, let-in flush. Countersink Ø 21 mm, depth 12 mm. Supports Ø 42 mm x 100 mm. Inclination angle 10°. Colour metallic grey, highly weather resistant, (RAL 9006). Sea weather-suitable coating on request. Suitable for luminaires of the series Jovie, Viacon A and Viatana A. In combination with Viatana A, a reduction piece Viatana ZR/42 is required. Fixing accessories are not included in the scope of delivery.

Planning information: The wall mounting meets the requirements of EN 60598 and is designed for the exposure to wind according to EN 1991 (Eurocode) with basic velocity of up to 30m/s (corresponds to wind zone 4 in Germany) in terrain category 1. A snow load (up to 1kN/m²) and icing (up to 2cm) at a mounting height according to the installation instructions are taken into account. Not considered are exposed locations (e.g. bridges, installation on buildings or directly adjacent to railway tracks). Impact loads are not considered.
