

**NITECORE®**

**High grade filter and diffuser**

**NFG25**

**NFR25**

**NFD25**

**NFB25**

- Converts flashlights with a 25.4mm body diameter into a red light.
- Easily penetrates fog and smoke, ideal for hunting and as locator beacon in emergency situations.
- Made from PC2805 high-grade plastic (Bayer Material Science AG).
- Highly resistant to extreme temperatures, thus ideal in harsh environments.
- Toughened ultra-clear glass lens with anti-reflective coating provides heat resistance and maximum light transmittance.
- Portable, lightweight and easy to attach and remove.

## Lighting effects after installing NFB25, NFG25, NFR25.

NFB25	NFG25	NFR25
blue light	green light	red light
Ideal for fishing and as locator beacon in emergency situations.	Ideal for hunting and as locator beacon in emergency situations.	Easily penetrates fog and smoke, ideal for hunting and as locator beacon in emergency situations.
