

Argon

Red AF/AS

Hellberg Argon is one of the most advanced safety glasses available on the market. The three step temple angle adjustment for a secure and close fit in combination with the dual soft material used on temples and nose bridge enhances the comfort and grip in all kind of work applications. These versatile safety glasses is available in a vast array of lenses and coatings, making it the professionals choice!

Art no. 23333-001

Features

Adjustable Temple Angle

Easy three step temple angle adjustment allowing a personalized and secure fit close to the face, protecting the eyes from impacts and debris.

Red Mirror Lens

The Red mirror coated lens protect against UVA-UVB (99,99%) light and deflect sunlight, reduces glare and enhances contrast more than a standard tinted lens. For use in very sunny outdoors environments.

Anti-Scratch Coating

Protects both sides of the lens against surface scratching increasing the lifespan of the eyewear.

Anti-Fog Coating

Prevents both sides of the lens from fogging or steaming up when exposed to warm humid environments.

Dual Material Temples

The soft rubber material covering the hard plastic temple enhances the wearer comfort. A groove pattern ensures a good grip when moving around.

Soft Nose Bridge

The rubber material is comfortable and flexible to any nose shape.

Ideal for Use in Combination with Hearing Protection

The slim temple design minimizes any leakage to the hearing protectors ear cushions, retaining a good seal between cushion and the face with very little noise attenuation loss.
