

Krypton

Red AF/AS

Hellberg Krypton sets a new standard in style, comfort and fit for safety glasses. The full framed design with floating lens in combination with the soft dual material added to temples and nose bridge provides a perfect fit for all users. Available in a vast array of lenses and coatings, there's a choice for everyone.

Art no. 21333-001

Features

Red Mirror Lens

The Red mirror coated lens protect against UVA-UVB (99,99%) light and deflect sunlight, reduces glare and enhances contrast more than a standard tinted lens. For use in very sunny outdoors environments.

Anti-Scratch Coating

Protects both sides of the lens against surface scratching increasing the lifespan of the eyewear.

Anti-Fog Coating

Prevents both sides of the lens from fogging or steaming up when exposed to warm humid environments.

Dual Material Temples

The soft rubber material covering the hard plastic temple enhances the wearer comfort. A groove pattern ensures a good grip when moving around.

Soft Nose Bridge

The rubber material is comfortable and flexible to any nose shape.

Ideal for Use in Combination with Hearing Protection

The slim temple design minimizes any leakage to the hearing protectors ear cushions, retaining a good seal between cushion and the face with very little noise attenuation loss.
